

Aviation and Aerospace in Colombia

Overview

With a full-service practice, our aviation and aerospace team is widely regarded as one of Colombia's leading players in the field. We are local advisors to several airlines and aviation-related companies on their legal activities within Colombia.

Our team advises on the purchase, financing, leasing, and security of aircrafts, including registration and other filings. We also offer legal advice on aircraft purchase and sale, financing, leasing, and related administrative procedures, while assisting airlines with aeronautical issues and other non-aviation related matters.

Some of our clients include: Delta Air Lines Inc.; Dassault Aviation S.A.; Trans-Caribbean Cargo; and PrimeAir.
