

Overview

Rely on experienced lawyers and professionals in our Construction practice, which handles major energy and infrastructure projects, as well as large-scale commercial and residential developments.

Our lawyers are well versed in all manner of procurement methods, and we have extensive experience advising on the full range of standard form construction contracts and regularly draft bespoke construction contracts for the full range of projects. Clients include banks, developers, contractors and designers. Our advice is designed to help structure contracting strategies that fulfill our clients' business and financial objectives. We ensure that our clients fully understand the risk profile of their projects and, with these considerations in mind, assist with the selection of optimal delivery methods.

We have extensive experience in all forms of dispute resolution, including litigation and arbitration, and alternative dispute resolution techniques. While we always strive to help our clients avoid disputes, we have a strong track record of successful results in high-stakes proceedings.

In collaboration with our market-leading IP team, we offer vast experience in the local and regional prosecution of the IP portfolios of engineering and construction clients. We assist with the management of complex IP portfolios and advise on privacy, consumer protection, information and technology, advertisement and promotional matters, and regulatory matters.

Benefit from the solutions-oriented service we provide, and work with a best-in-class team of experienced, diverse lawyers and professionals, when and where you need it—around the corner or around the world.
