

Joint Statement Colombia - Peru on Anticorruption

June 18, 2019

On the occasion of the visit of President Iván Duque to Peru, a joint declaration was issued with his counterpart Martín Vizcarra Cornejo in which they stated, among other issues, their commitment in the fight against corruption indicating that an extraordinary period will be celebrated of sessions of the General Assembly of the United Nations, in the first semester of 2021, with the purpose of adopting concrete actions to prevent and combat corruption, strengthen international cooperation and creation of an international anti-corruption court.

We consider this as an opportunity to strengthen relations between the two countries and for companies with joint ventures to take measures against corruption.
